

**ALARMEX, INC.**  
**PERSONAL EMERGENCY MONITORING & RESPONSE SERVICES**

With millions of baby boomers seeking care for their aging parents, and with the cost of retirement communities on the rise, there is an increasing demand for in-home monitoring solutions that allow elderly individuals to live independently longer, without sacrificing their safety or well-being.

Call Alarmex, Inc. to take advantage of our Personal Emergency Monitoring & Response Services that allow concerned individuals to:

- Check in to ensure their loved-one is getting up and moving around the house daily
- Monitor pantries and medicine cabinets to ensure loved-ones are eating and taking medications regularly
- Find out if their alarm system has not been armed at night, and if not, log-in to arm the system remotely
- Receive an alert (and optionally have an alarm forwarded to Alarmex' Central Monitoring Station) if the individual presses the button on a panic pendant/wristband
- Log in and locate an individual carrying Alarmex' *MyPersonna Alert* and have Alarmex' Central Monitoring Station dispatch appropriate authorities if necessary
- Receive an automatic alert if a loved one wanders and leaves a designated "Safe-Area."

Alarmex, Inc. lets seniors and disabled individuals stay connected around the clock with family members and care providers who can check in on them and provide assistance if needed.

Please call Alarmex, Inc. @ 978-887-2999 with any questions about how we can help you better protect your family.
